Wave System

Hand Drawn

CWF 1021 TRACK / HAND DRAWN

The 1021 Hand Drawn not only has a sleek minimalistic appearance, but is extremely durable, strong and easy to assemble. It is compatible with both standard roller gliders and wave system. This is also a fully bendable track, coming in both White and Black finishes, making it an extremely versatile solution for any interior window scheme. While cording this system you can have the cord located on either the right or left of the track at your desired length, however upgrading it to our motorized version allows you to incorporate either a 35kg or 60kg Somfy motor for ultimate flexibility.
