# TOP FIX BRACKET

CEILING MOUNT | INSTALLATION GUIDE

## TOP FIX BRACKET – CEILING MOUNT

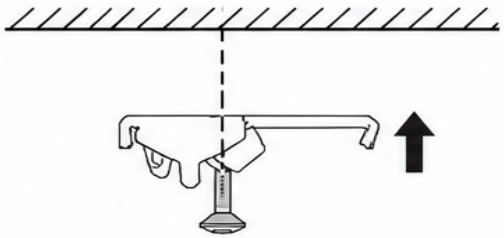

Step by step instructions for ceiling (top fix) installation.

### 1 Prepare the bracket

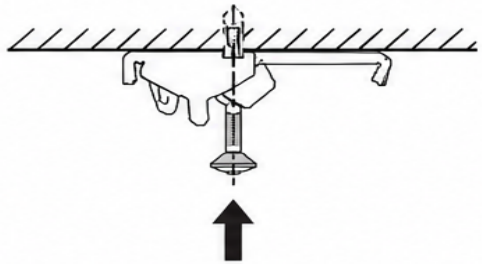

Place the screw into the top fixing bracket as shown.

### 2 Position bracket to ceiling

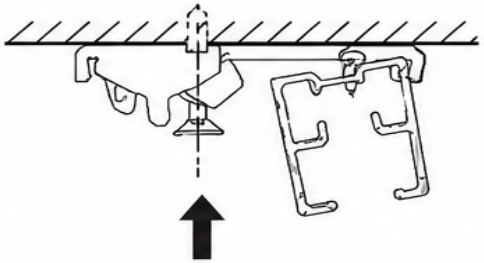

Hold the bracket up to the ceiling in the required position.

### 3 Secure to ceiling

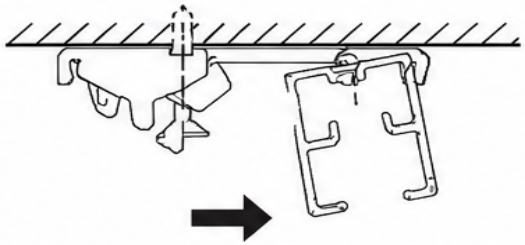

Tighten the screw to securely fix the bracket to the ceiling.

### 4 Insert rail (front)

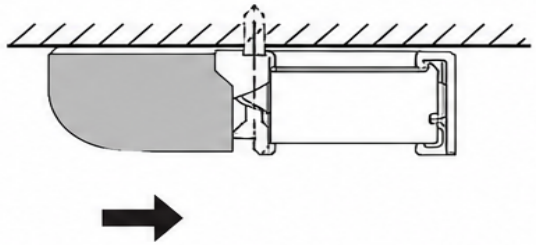

Lift the front of the rail up into the bracket as shown.

### 5 Slide rail back

Slide the rail backwards until it clicks into place.

### 6 Fit end cover (if required)

Push the end cover onto the rail to complete the installation (if required).

**Note:** Ensure all brackets are level and securely fixed. Check the rail is firmly clicked into each bracket before use.
